**Subject:** RE: Hive server restart complete - please resume w/f runs

I didn't start sqoop yet. Wf was completed with hotfix Vijay provided. ( 1 file was replaced for unknow reason after today's promotion and it was wrongly pointing to dev. Vijay is investigating).

I will start sqoop (also will ingest for 2 day's data) to test sqoop scripts. It won't touch typed tables. Data will be ingested from DPL to our own test table. Hence it will not impact curation.  
Please let me know if any concerns. Or I will start sqoop in 5 mins.

Thanks and Regards

Hi Winnie,

So we were able to sqoop the data from DATaphile Prod successfully?

Regards,  
Ranjit

Hi Jayeeta,

DPL sanity ingestion ( for 2 days only) is completed. Please continue your curation.  
Let me know if you want to take Saturday window for curation. I will plan my formal ingestion accordingly.

Thanks and Regards

I am doing sanity check, as discussed with everyone.  
Once I complete, I will confirm to Jayeeta, and she will do curation. I think that is the plan we all agree.  
I am OK to do formal ingestion on Sunday if required.

Thanks and Regards

**Importance:** High

Why are we having so much confusion?.. why are we not synching with each other

I was clear stating that – DP ingestion can wait and should not collide with Curation runs

Hi Jayeeta,

Please coordinate with Winnie. She is asking to hold the DPL curation until she finish the ingestion

Thanks
